FleetCare

Making uptime the standard

Where it all
comes together

GE imagination at work

GE's FleetCare offers preventative and corrective maintenance services for your entire fleet through our extensive network of European workshops. We provide damage repair support and a compliance management service, to ensure that we maximize your uptime and keep your freight on the move wherever you are in Europe.

Do these concerns sound familiar to you?

- I need to **increase** equipment uptime and utilization of my fleet
- I need to **focus** on my core business
- I want to **reduce** the administration of managing too many service providers
- I need to **control** the maintenance costs and service quality across all the countries in which my equipment operates
- I need to **safeguard** my fleet against breakdown and maintenance problems
- I need to ensure I **comply** with the regulations no matter where I am

This is how GE's FleetCare can solve your issues

- We have a **pan-European** presence with over 5,000 guaranteed and qualified service points, roadside assistance with mobile maintenance vans to quickly resolve your equipment problems 24/7, 365 days a year
- We are the only true **one stop shop** partner whom you can rely on in Western and Eastern Europe
- We have an **in-depth understanding** of the operational and technical issues of maintaining a fleet through our 40+ years in the business
- We provide **financial stability** through a fixed fee for all services including damage repairs
- We track, plan and coordinate effectively through our multi-lingual maintenance **management system**, and technologies such as VeriWise™

Maintenance

Managing your maintenance, repairs, compliance and regulation needs through a flexible contract arrangement, or as a one-off service for your complete fleet and tyres.

Roadside Assistance

24/7 service contact centres to help you get your equipment quickly back on the road.
