Optimizing performance and profit

## GE's VeriWise™

Get on track with the eyes of an eagle

VeriWise™ Asset Intelligence system from GE's FleetIntelligence provides you real-time information and uninterrupted tracking coverage, to ensure maximum security and monitoring of your freight and equipment. It lets you make quick decisions if assets are lost or stolen, puts idle assets and operators back into business, remotely monitors cargo temperatures, and verifies billing and subcontractors' activities. VeriWise™ Asset Intelligence gives you the peace of mind that your equipment and freight will reach their destination safely, securely and in the best possible condition.

GE imagination at work

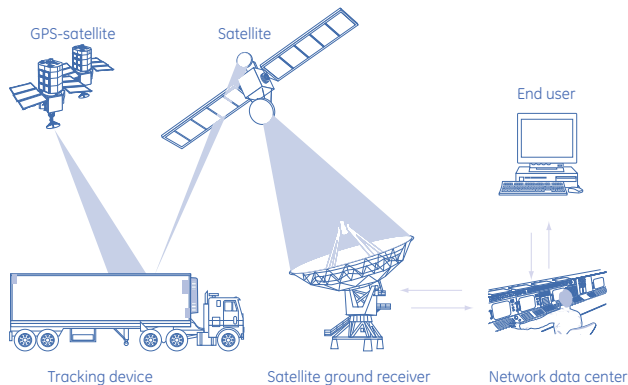

# What our VeriWise™ service can offer you

- Intelligence based solutions for fleet, freight and maintenance management
- State of the art **satellite** tracking and tracing technology
- Accurate and real-time information tracking
- 24/7 communication and service network coverage throughout Europe
