What you need, when you need it

Where it all
comes together

Leasing

Leasing from GE's FleetOptions gives you the power to grow

Leasing from GE's FleetOptions offers you a range of flexible financing for your equipment. Our experts are available to help you decide the best option for your business.

GE imagination at work

Finance your equipment through a company that knows your business and has value-added leasing solutions.

Operational Lease

Operational Lease allows you to be more competitive, helps control your cash flow and operating capital, and at the same time improve your financial ratios and return on investment.

Sale & Leaseback

Sale & Leaseback gives you the option of selling your trailers to us for immediate cash. In return, we can lease those trailers or any other more suitable trailers back to you. Since we carry the asset value this gives you greater flexibility with your working capital, and increases your credit capacity.

FlexiRent®

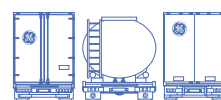

FlexiRent® gives you the option to lease equipment without the need for a long term contract. If you return the unit earlier than the agreed time in your lease contract, you will only be charged the difference between the full short term rental rate and the reduced FlexiRent® rate over the actual rental period. Alternatively, if your equipment needs to be changed, you could return it earlier and continue the lease with another equipment type at the same rental rate. FlexiRent® is currently available only in selected countries.
