TyreCare

Securing you against tyre damage

TyreCare from GE's FleetProtect offers you additional protection against tyre damage such as punctures, explosions and sidewall cuts that are not the result of improper maintenance.

GE imagination at work

What our TyreCare can offer you

- No contribution amount in the case of damage
- Installation cost included
- 24/7 European Roadside Assistance for tyre damage

Why our TyreCare is important for you

- We offer you protection against risks that most insurance companies exclude
- You can control your budget thanks to our fixed rate per day and avoid surprises when you require tyre repairs abroad
- Increases productivity by reducing the downtime of your fleet
- You can combine TyreCare with any other of GE's FleetProtect services, ensuring additional protection
- Gives you peace of mind

Contact your sales representative to know more about TyreCare from GE's FleetProtect and its applicable Terms and Conditions.

CaseStudy

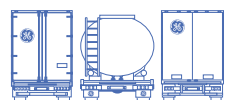

During long distances the risk of a tyre blow-out increases. For one particular international logistics company, most of their key routes were operated abroad. Their roadside repair costs were very high and often not budgeted for. TyreCare from GE's FleetProtect allowed them to easily budget their costs, as the amount was agreed up front and included in the protection agreement. In addition, they found that because of GE's extensive pan-European network, they were able to receive prompt service regardless of where the damage had occurred.
